

Call for Participation

**NIGERIA GEOPHYSICAL SOCIETY
2ND INTERNATIONAL CONFERENCE
THEME: THE ROLE OF THE EARTH AND ITS ATMOSPHERE ON
OUR TECHNOLOGY
Dates: 17th-20th March, 2015**

**Venue: Covenant University, Canaanland, Km 10, Idiroko Road, Ota,
Ogun State, Nigeria**

Organized by
Nigerian Geophysical Society (NGS)
Supported by
Covenant University (CU)
Atmospheric and Space Environment Research Network (ASPERN)
Centre for Atmospheric Research (CAR),
National Space Research and Development Agency (NASRDA)

The NGS 2015 invites researchers and practitioners to share their work on the role played by the perturbation of the Earth and its atmosphere on our technologies. This could initiate multidisciplinary research areas, provide answers to older and new theoretical perspectives and build integrity between future technologies and our everyday lives. Please visit our website for complete information (www.niggs.org). Also complete the application form and submit abstract not more than 250 words in PDF format. Please send this information to other colleagues and friends. For more information mail oloriebimpjch2002@yahoo.co.uk

Thanks
Dr Falayi E.O
NGS President
