Re:  
Lettre du GIRGEA, No. 47

Dear ISWI Participant:

Please find "Lettre du GIRGEA, No. 47" (English version) attached.

When the last one came out (No. 46, April of this year), Cote d'Ivoire was a disaster area. Fortunately, it is now on the road to recovery. Prof. Vafi, who lives there, recently was a guest lecturer at MAGDAS School (Nigeria). He said during this school that he thinks his country will bounce back. With enough persons like him, I am sure it will.

The world has always belonged to the optimists.  
Because the pessimists gave it away.

Cordialement,

: George Maeda  
: The Editor  
: ISWI Newsletter

# IGRGEA LETTER

International Geophysical Research Group /Europe-Africa  
International Geophysical Research Group /Europe-Asia

## IGRGEA

At the end of the IEEY, in 1995, IGRGEA (International Geophysical Research Group Europe Africa) has been organized to follow the research work initiated during IEEY (International Equatorial Electrojet Year), in 1992. Since January 2003 IGRGEA is developing at the Institute of Geophysics in Hanoi.

## EGYPT / LUXOR – IAGA 3

The next IAGA 3 meeting will be held at LUXOR, Nov 13 to 17 2011. Submission for communications will be closed on September 15. Please go to the site: <http://iswi.cu.edu.eg>  
The scientific theme is: « *Heliospheric physics during and after a deep solar minimum.*”

The working group is organized by Ahmed HADY and Luc DAME.

MOROCCO  
School of Space Meteorology  
December 5-16, 2011

## Sponsors

The school of Space Meteorology will take place as proposed at RABAT in Morocco on 15th to 16th December 2011.

## Professors and Lectures

C. Amory-Mazaudier LPP/Polytechnique UPMC/CNRS	Magnetic earth variation transitories
Elisabeth Blanc CEA	Atmospheric dynamics and perturbations
Karine Bocchialini IAS/ Université Orsay	The Sun : General presentation
Dominique Fontaine LPP/Polytechnique UPMC/CNRS	Magnetosphere
Jean-François Georgis LA Observatoire Midi Pyrénées	Radio observations of the atmosphere
Alain Hilgers ESTEC	Space Meteorology: Perturbations
Karl-Ludwig Klein Observatoire de Paris	Radio observations of the sun
Frédéric Pitout IRAP	Ionosphere : magnetic storms
Serge Soula LA Observatoire Midi Pyrénées	Atmospheric electricity
Art Richmond NCAR	Ionosphere: Electrodynamics
Nicole Vilmer LESIA, Observatoire de Paris	Solar activity

Editeur-rédacteur : C. Amory-Mazaudier, Rédacteur-traducteur : P. Vila  
Laboratoire de Physiques des Plasmas : 4 Avenue de Neptune, 94107, Saint-Maur-des-Fossés, France  
Tél : 33 (1) 45 11 42 37, Fax : 33 (1) 48 89 44 33

C. Amory-Mazaudier LPP/Polytechnique UPMC/CNRS	Magnetic earth variation transitories
Elisabeth Blanc CEA	Atmospheric dynamics and perturbations
Karine Bocchialini IAS/ Université Orsay	The Sun : General presentation
Dominique Fontaine LPP/Polytechnique UPMC/CNRS	Magnetosphere
Jean-François Georgis LA Observatoire Midi Pyrénées	Radio observations of the atmosphere
Alain Hilgers ESTEC	Space Meteorology: Perturbations

Frédéric Pitout IRAP	Ionosphere : magnetic storms
Serge Soula LA Observatoire Midi Pyrénées	Atmospheric electricity
Art Richmond NCAR	Ionosphere: Electrodynamics
Nicole Vilmer LESIA, Observatoire de Paris	Solar activity

The school is organized by:

A.Touzani : President of CRASTE-LF  
(Center affiliated to UN)

C . Amory-Mazaudier: scientific secretary

N. Vilmer : Responsible for ISWI France.

There will be 27 participants selected from the following countries:

Algeria, Benin, Burkina Faso, Ivory Coast, Cameroon, Morocco, Mauritania, Niger, Congo Republic (RC) and Congo Democratic Republic (RDC), Senegal.

The training will be in French.

**RDC**  
**SIG school, GPS and new technologies**  
**September 12-24, 2011**

**Sponsors**

Ministère de la Recherche de RDC

The school scheduled in RDC will take place from 12 to 26 September 2011, at the Kinshasa's University,

**Professors and lectures**

C. Amory-Mazaudier LPP/polytechnique UPMC/CNRS	Transitory variations of earth magnetic field
Nicolas Bergeot Observatoire Royal de Belgique	GNSS Ionosphere
Télesphore Brou Université d'Artois	Geographic information and remote detection system
Les Cottrell Stanford University	Internet
Bienvenue Dinga Marien Ngouabi University (Congo)	GPS / Applications
Bruno Kahindo Kinshasa University (RDC)	GPS/ SCINDA
Ngomba Marcelline Kinshasa University (RDC)	Geographic information and remote detection system
Viviane Pierrard Institut de Belgique d'aéronomie spatiale	Space meteorology
Monique Petitdidier LATMOS/IPSL	Computation grids and computation resources
Frédéric Ouattara Koudougou University	Equatorial ionosphere GPS technique
Mikhail Zhizhin Russian Academy of Science	Database

The professors belong to the following countries :

*Belgium, Burkina Faso, Ivory Coast France, RC, RDC, Russia, USA*

and the 55 participants from the following countries : *Gabon, RC and RDC.*

This school will group practitioners of various disciplines, using common tools: GPS and GIS (Geographic Information Systems), Databases, Internet and computation grids. There will be also general lectures for all and practical exercises in the various disciplines.

The training will be in French (80%) and English (20%).

**NIGERIA**  
**School on Litho- Space Weather**  
**August 15-20, 2011**

The first school ISWI/MAGDAS took place in the Redeemer's University, near Lagos (Nigeria), from August 15 until August 20, 2011.

This school was organized by:

- SERC, Kyushu's University, Japon
- NASDRA, Abuja, Nigeria
- University of Reedemer, Nigeria
- ARCSSTE-E, Ile Ife, Nigeria

*African Regional Centre for Space Science and Technology Education - English*

40 scientists from all over Africa participated to this school, including 8 host stations representatives from Egypt, Ethiopia, Kenya, Mozambique, South-Africa, Sudan, Tanzania. There are 8 instructors from Japan, Côte d'Ivoire, Nigeria and Sudan.

*Japon : Professors Yumoto, Yoshikawa, Abé, Ikeda and Maeda*

*Nigeria : Prof. Rabiu*

*Côte d'Ivoire : Prof. Doumbia*

*Sudan : Prof. Magdi*

This school was a real success.  
Thank you to all the organizers.

The ISWI school in Slovakia was organized by Ivan Dorotovic (UPJS) and Nat Gopalswamy (NASA) at the Astronomical Institute of the SAS Tatranka, Lomnica from August 21 to 27, 2011.

Institutions in charge of the organization :

\*Centre of excellence « Centre of Space Research: Space Weather influences » / Astronomical Institute of Slovak Academy of Sciences, (AI SAS), Tatranska Lomnica

\*Institute of Experimental Physics, Kosice (IEP SAS)

\*Institute of Physics UPJS de Kosice

\* Slovak Central Observatory (SCO) Hurbanovo

All the informations about the program and the lecturers are on the site:

[http://stara.suh.sk/id/iswi/summer\\_school/scientific\\_program](http://stara.suh.sk/id/iswi/summer_school/scientific_program)

46 students from 26 countries (Argentina, Armenia, Austria, Brazil, Bulgaria, Croatia, Czech Republic, Ecuador, Egypt, Germany, Greece, China, India, Ireland, Italy, Kenya, Korea, Mexico, Nigeria, Poland, Portugal, Romania, Slovakia, Spain, Turkey, Ukraine) and 25 professors from 11 countries (Austria, Czech Republic, Ecuador, France, Germany, Ireland, Poland, Portugal, Slovakia, UK, USA) participated to this school.

This school was a real success.  
Thank you to all the organizers.
